

RADIO-CONTROLLED WATCHES

CASIO®

WAVE CEPTOR  
RADIO CONTROLLED

A slim watch (9.9 mm), but big in every other respect: stain-  
less-steel band, sapphire glass,  
Multiband 6 radio-controlled  
reception, Tough Solar techno-  
logy and plenty more besides.  
The LIW-M1100DB-1AER:  
a radio-controlled watch which,  
in addition to the finest materials,  
high-quality manufacturing and  
exquisite design, leaves nothing  
to be desired in terms of techno-  
logy, either.
